Subject: Request for Reclamation Contract and Completion of Reclamation Surety, Castle Valley Stone, LLC, Reef Mine (M/015/094), Emery County, Utah

Dear Mr. Burnham:

On July 10, 2006, the Division received a signed Addendum #1 Certificate of Deposit Letter Agreement referencing the exploration project, E/015/072. Since the exploration project is now a small mine, the referenced reclamation surety must identify the Reef Mine, M/015/094. As a result, the enclosed addendum dated June 28, 2006 must be replaced with the enclosed addendum dated July 25, 2006. The addendum will require an authorized signature by a member/manager of Castle Valley Stone, LLC and an officer of the bank. Please sign and date this addendum and have an officer of the bank sign and date it as well. Please return the original signed and dated addendum to the Division.

In addition, a reclamation contract is required as part of the reclamation surety process. Please contact Minerals Surety Coordinator, Beth Ericksen, for the necessary details to submit the reclamation contract.

**Please complete the cd agreement and reclamation contract and return to the Division within seven (7) calendar days from the date of this letter. The existing cessation order cannot be terminated until the appropriate documents are completed correctly.**

If you have any questions or require discussion regarding the content of this letter, please contact Beth Ericksen (801) 538-5318.

Sincerely,

Susan M. White  
Mining Program Coordinator  
Minerals Regulatory Program
